KITTEN ADOPTION POLICY

Adoption Fees are \$220.00 for kittens under 6 months and \$160.00 for kittens 6 months to one year.

Your adoption fee includes:

- Spay or neuter surgery
- Flea treatments
- Several dewormer treatments
- Combo test for FIV and Feline Leukemia
- Microchip
- At least one FVRCP vaccine (there may be 2 or even 3 more that will be due)

*******Most kittens are too young to be rabies vaccinated, but they must have a Rabies vaccine by the age of 6 months per Massachusetts State Law no exceptions, even though they will not go outside. Kittens that are 3 months old or over 3 pounds will have a rabies vaccine prior to adoption.**

All applicants must have a veterinarian of record, if you do not have a veterinarian please locate one in your area and begin a relationship for when your kitten will need their booster FVRCP vaccine and Rabies vaccine. We will be contacting them to verify.

If you rent, we must speak with your landlord or you may provide a copy of your lease which states that cats are allowed.

Our goal is to find loving, forever homes that will care for the kittens their entire lifetime. Maintaining a kitten's vaccine schedule insures they will grow up to be healthy.
